

Portable Compressors MOBILAIR M 20

With the world-renowned SIGMA PROFILE 

Free air delivery 2.0 m³/min

MOBILAIR M 20

Portable rotary screw compressor with SIGMA PROFILE

Quiet and compact

Capable of powering a heavy-duty breaker, the M20 is a powerful and compact portable compressor that combines quiet operation with outstanding fuel economy:

- Compressor airend with SIGMA PROFILE  rotors to ensure more air and more savings
- Highly efficient 1:1 drive ensures optimum power transmission and long service life
- Water-cooled, 3 cylinder Kubota engine

Lightweight and service-friendly

A high performance compressor doesn't necessarily mean a heavy compressor. The M 20 delivers maximum power in a compact, lightweight package:

- Advanced, sound-absorbing steel enclosure; zinc-primed and plastic-coated finish for long-term corrosion resistance and value retention
- Optimal component accessibility for ease of maintenance
- With compact design and an empty weight of less than 450 kg, the unit is particularly manoeuvrable

Patented Anti-Frost Control for virtually condensate-free compressed air

Specially developed for portable compressors, the patented Anti-Frost Control automatically adjusts operating temperature in relation to ambient. The benefits speak for themselves:

- Prevents breakers from freezing up
- Significantly extends air-tool service life

Everything safely under control

The user-friendly control and instrument panel enables all information to be viewed at a glance.

- Operation is made simple via a single switch
- Clear icons further enhance user-friendliness
